

Weekly Newsletter

From the City Administrator

Dear Tool,

I'm sure that many of you know my affinity for Tool Elementary. I believe the school is a breeding ground of ideas and an environment that I all believe we should try to cultivate as much as we can.

This week, the school hosted the Grab N' Go Read event, in which various people from the community were able to meet the kids and show them a bit of Halloween fun. Staff decided to hand out candy, (Why, not right?) and the kids loved to see their teachers dress up and give them some Halloween fun!

This event reminded me of not only coming together, but also bridging the inner communities of Tool, together. So, whenever you see the Fire Department, Police Department, a POA meeting, city staff, the Garden Club, members of the Rotary Club or whomever else in the city, make sure you say hello and be cordial. You just may make their day!

On a lasting note, our Police Department is looking for a new Chief of Police to lead our fine men and women. If you know of anyone or have questions on the application process, you can always email me at jkizzee@tooltexas.org or you may find the application on our website.

Tool, Together.

Sincerely,

Julius Kizzee
City Administrator
